THE MINISTRY OF EDUCATION AND RESEARCH
U.S.A.M.V.B. TIMIȘOARA
The Faculty of Animal Sciences and
Biotechnologies,
Aquaculture department

Is hosting the organisers:

PRECISE INVEST S.R.L.

AACL-Bioflux

That are honoured to invite you on

28-29th of April, 2009

At the second edition of

**International symposium of aquaculture
scientific presentations**

and

**Workshop:
ACVAPEDIA 2009**

The event will be held in the amphitheatre of the Faculty of Animal Sciences and Biotechnologies in Timișoara

Coordinators: dr. eng. Radu MUSCALU
dr. eng. Viorel CRISTEA
Scientific chancellor : dr. biol. I. V. PETRESCU-MAG

In the attention of those that wants to publish papers at the symposium:

The papers will be presented orally or/and as poster, according to the organiser's requirement. After the paper will be received on e-mail, the first author will be acknowledged about the method of presentation. This is necessary in order to avoid agglomeration of oral or poster presentations.

Symposium's sections

1. Ichthyology and aquatic ecology
2. Aquatic biotechnologies
3. Pathology and aquatic sanitation
4. Fish farming
5. Special and ornamental aquaculture
6. Modern aquaculture systems
7. Acva-marketing and fishery legislation
8. Industrial and sport fishing

Conditions for publishing:

- ◆ One of the first conditions is to make the payment of the above-mentioned fees;
- ◆ Scientific papers that fit the **specified thematic** can be presented oral or poster, according to the reviewers decision. This decision will be announced in time to the authors;
- ◆ Papers will be typed in **English** using Microsoft Word software;
- ◆ The papers content must respect the AACL-Bioflux journal instructions: (<http://www.bioflux.com.ro/>);
- ◆ Papers with more than 6 authors will not be accepted for publishing. One author can be accepted on maximum 3 papers (single or first author or co-author);
- ◆ Papers will be send to the following e-mail address:
aqua@sterlet.ro

Articles will be published in the **AACL Bioflux Journal**, vol. 1/2009 (April), known as a speciality journal in the field of aquaculture, fish genetics, ichthyology, aquatic ecology and other adjacent scientific branches of aquatic life.

Before being published, the papers will be reviewed by a committee made from Romanian and foreigner specialists. The papers content must have a high scientific value. Correct quotations of references are essential for accepting the paper in the volume, and using the correct and coherent English language is absolutely obligatory. Contrary, the authors will be asked to get in touch with the scientific board, - zoobiomag2004@yahoo.com - in order to make the necessary corrections and review in useful time.

The journal is not compromising the on-time publishing of articles due to papers send with delays or because of authors that cannot be contacted. Late papers, held and accepted for publishing can be included in the next volume of the journal AACL Bioflux (vol 2/2009).

In the last issues of the journal, specialists from within the country and from abroad have published, the journal being indexed in 9 international databases: **Ulrich's Periodicals Directory, DOAJ, SOCOLAR, ICAAP, ROAR, Google Scholar, Index Copernicus, EBSCO și SCIRUS**, being also proposed for the year 2009 to be **ISI** indexed.

Publishing papers in this journal is a opportunity for researchers to make themselves and their work known via the coloured pages (without supplementary fees) as hard copy and also as on-line version.

Details about the journal may be found here:

<http://www.bioflux.com.ro/aac>
<http://www.bioflux.com.ro/journal>

Dead-lines: *By April 1st 2009 the ON-LINE REGISTRATION form must be filled, and the PAPER IN ELECTRONIC FORMAT according to the instructions received from AACL-Bioflux..*

Please send together with the paper also the proof of payment.

In the case that papers will be received after this date, they cannot be published in the current volume, but may be presented.
